Of course there has been gill of spring water. some bad blood existing between the two organizations, but nothing of a ble thing they could do They wards communism. propose to consolidate, and as there are good men in both companies we have no doubt that the new road to Tomb-tone will now be speedily built.

The Sunset Company have com-Arizona mill is located about three King of Spain. present indications there will be from 100 to 130 stamps operating on Tombstone ore by the close of the present year. The building of the Tombstone railroad would be a godsend to the mills, as it would enable them to move their one from the mines to the mills for about one half the price they now are paying. We trust that arrangements may be made in the east for the capital to push this important enterprise through at an early day.

WE have bitherto neglected to notice the appearance of the Arizona Quarterly Illustrated, a new applicant for public favor. It contains a number of cuts showing up mines and mills in Tombstone camp, as well as the familiar faces of some of the leading citizens of the Territory, as wel' as some others who are not so leading The illastrations are poor, but we are promised better work in that particular in the next issue. It has a wide field in which to operate, and if it does justice to the work in band will

The Third State.

Illinois and Ohlo are now struggling for the third place on the list of States. At the taking of the census of 1870 Illinois was one hundred and fifty od ! thousand behind, but the thought she could easily overcome it in 1880. It now appears that many of the interfor counties of Illinois have not increased in population as fast as was expected, and it will require the offitial count to determine which shall take the third place.

Globe District.

[From the Silver Belt.] Mr. Ford, of the Great Republic, reports the mine as showing well, with several tons of \$200 ore on the dump. A test sample of ore taken from the face of a drift in the Emeline mine, 60 eet in depth, returned an assay of \$478.37 per ton of 2,000 pounds.

Major Baldwin, we are informed has taken a bond for the sale of the La Plata mine, the first eastern extension of the Mack Morris. Present development on the La Plata warrants us in saying that it will prove as good mine, if not better, than the Mack Morris.

The richest ore in the winze, of the Mack Morris, at a depth of 150 feet is four feet wide. Four tons of ore taken from the entire width of the vein and milled by raw amalgamation as a test and worked to ninery per cent. of its pulp value, gave \$336 per ton.

The working shaft of the Mexican nine which is now two hundred feet deep, will be pushed to four bundred feet as soon as steam hoisting works abroad that the mine was played out. which, doubtless, originated from the discharge of hands, because of the proposed change of raising ore and

Empire District. Prospecting in the Empire continues to progress. Mr. Hoag has let contracts for sinking on some six mines for the New York Company, some of which are reported as looking well. The New York and Brick Top are among the best of the group. Adobe bricks are being made at Empire City, for a business house and office for the New York Company. There are a of Empire City which are being pros. HIGHEST PRICES PAID FOR pected. About three miles north of Empire is another group of mines, which are considered promising. The Total Wreck makes a very good Manufacturers of Bluestone. showing. This mine is claimed by two different parties, and had it not been for this prospective contest exforthcoming to devel pe our mines, and an era of great prosperity will isting, a mill would have been ordered for the property ere this. It is an unfortunate thing for Empire district that this property is not in shape to be put upon the market, as it might aid in bringing other mines in that locality into notice.

EVERY one who has read the braufuture. He accepts the principles tiful little French story "Picciola" will remember how tenderly the prisoner Charney watched over the attle gilly flower that was his sole consolation in the fortress on the Italtan border. It will be recalled that his first act in the morning and the last at night was to inspect the timey plant which so strangely had thrus itself up between the stones of the payement of that solitary prison. He regarded it with the tenderest sentiment and observed narrowly its growth from day to day, defending it from the fraud, viclence or incompetency con- inclemency of the weather, and markrel, the noble t constitution and wisest | ing with vigilant eye the development laws are useless and the bayonet is a of its building beautics. Comparable with the solicitude of the desolate Charney for Picciola is the anxioufor free men." He skims over with regard which a young man surveys out touching any of the live issues of each day the growth of these slender shoots spring ny from his callow lip. In that hirsute fringe his partial cy discerns charms which escape less GENTLEMEN: I have the honor to ap by the dozen with the usual list of no hing to the passion of a young man

A Drowsy Old Town.

[Mrs. Lew Wallace in August Atlantic.] I used to think Fernandina was the sleepiest place in the world, but that was before I had seen Santa Fe. The drow-y old town, lying in a sandy RAZORS AND POCKET-KNIVES. mountain walls, is built of adole bles an extensive brickyard, with scattered, sunburnt kilns ready for the fire. The approach in midwinter, Presidency I should deem it my duty undecisive. The Mexicans lost 13 to trust him for a three-cent stamp and rests in ragged patches on the red soil of New Mexico, is to the last degree disheartening to the traveler entering the narrow streets which appear mere lanes. Yet, dirty and unkept, swarming with hungry dogs, it has the charm of foreign flavor, and, like San Antonio, retains some portion of the grace which long lingers about, if indeed it ever forsakes, the spot where Spain has held rule for centucies, and the soft syllables of the Spanish tongue are yet heard.

THE law of libel for newspapers has just received an intelligent interpret ation in England in the Court of Common Pieas, Lord Colering being the The San Diego Union complains of judge and the cause tried before a special jury, being an alleged libel in he Field, an English sporting paper. The libel consisted of an assertion in Sr. Jouns N. F. July 30 .- The Brit. the quail are so numerous that the columns of the journal that a gen states is a policy the foundations of ish bark Gil of Devon-arrived here, whole vineyards have been stripped fleman well known in sporting circles had been guilty of cruelty to his dog at a bench show, a charge that was after a passage of 27 days. She brought acres with not a grope left. This is clearly disproved by the plaintiff respected abroad and so beneficient at in with her a large white-painted fig certainly very aggravating to growers. The jury found on the evidence prehome. Tried by blood and fire it are head which the captain affirms to of grapes. The provisions of the game sented that the statement complained of was not true in substance and in fact, but that it was made in good faith. Upon that finding the judge directed a verdict in favor of the Field insemuch as it is the duty of the paper to -ay what it believes to be true, and the essence of the libel is malice. - [American Stockman.
